Science Cycle 1 Autumn Term: Knowledge Organiser – Human Body and Senses

Key Learning (Skills)

By the end of this learning, I will be able to…

- Identify, name, draw and label basic parts of the human body
- Say which part of the body is associated with each sense

Working scientifically:

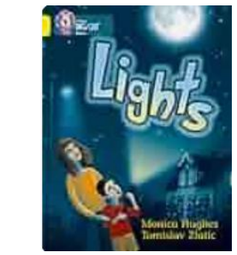
- Asking simple questions and recognising that they can be answered in different ways.
- Observing closely, using simple equipment.
- Identifying and classifying.
- Gathering and recording data to help in answering questions

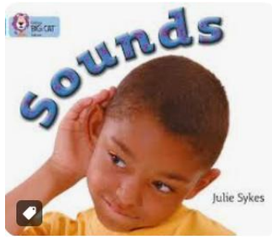
Key Learning (Knowledge)

By the end of this learning, I will know…

- Humans are mammals and vertebrates
- We can use touch to explore the world as one of our 5 senses
- The use of our nose and ears for smelling and hearing
- How the tongue detects flavour

Good Books





Key Vocabulary

classify	group objects, materials or living things based on similarities in appearance and properties
mammal	warm blooded animal with hair or fur that gives birth to live young
sense	how the body perceives outside change
identify	know and say what something is
rank	put things in order

What I already know (prior learning)

Reception

- Exploration of the natural world around them (EYFS Framework; ELG The Natural World)
- Using senses to observe seasonal change

What I will learn next

Year 2

- Movement and nutrition in the human body
- Light and shadows
